

REMANUFACTURED LABELING EQUIPMENT CURRENTLY AVAILABLE FROM K2 ENGINEERING GROUP

K2 Engineering Group currently has available several Kronos, Canmatic labeling machines in several pitch configurations. These machines will be fully remanufactured and upgraded per your requirements, and we are offering two(2) variations of remanufacturing levels for increased cost savings. Business has been good and these labelers are available due to "trade in allowances" from customers that have purchased new K2 Summit Labeling Machines.

Below is a list of the equipment currently available for remanufacturing, and dependent on the level of remanufacture and upgrade deliveries will be short, especially when compared to new equipment deliveries.

Available:

Kronos Canmatic - 720/9-251 pitch - speeds up to 300 CPM (could be converted to 18 plate)

Kronos Canmatic - 720/18-126 pitch - speeds up to 600 CPM (2 available)

Kronos Canmatic - 720/21-108 pitch - speeds up to 700 CPM

Kronos Canmatic - 960/28-108 pitch - speeds up to 1,000 CPM (2 available)
