ENGINEERING GROUP

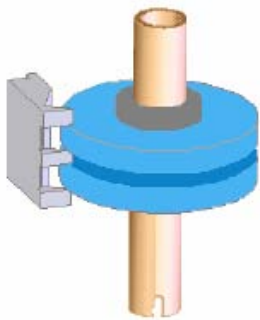

Replacement Canmatic™ Parts

K2 Engineering Group offers a complete rebuild exchange program...

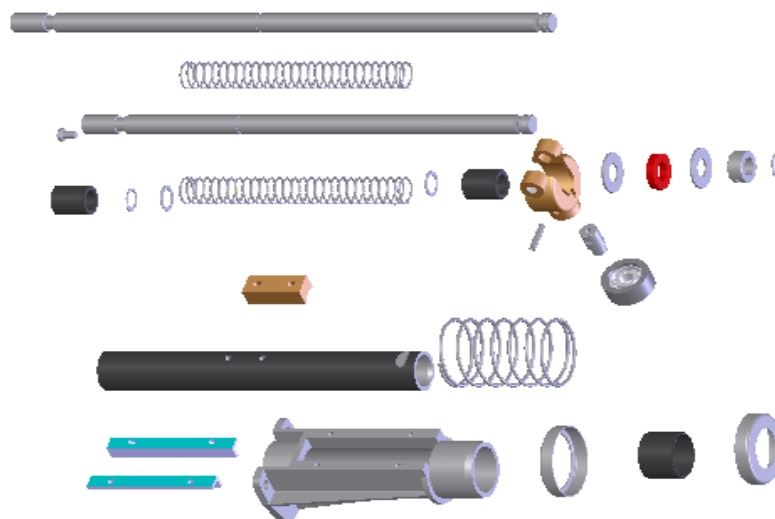

K2 Engineering will send fully rebuilt and tested Centering Heads to your facility, you can then place them on the machine and ship your old cores back to K2 in the same box as the new units arrived in.

Yes, it's that simple!

Not looking for a complete Centering Head...

We provide the individual parts for this assembly in case you are looking to do the rebuilds yourself.

Not sure what part number to order, well we are able to cross-reference your OEM's part numbers.

Give us a call today and we will be sure to meet all your parts needs!!
